Descriptors	Administration, Boards of Education, Coordinators, *Directories, Federal Programs, Governing Boards, *Higher Education, Personnel, *Professional Personnel, Program Administration, Researchers, *State Agencies, State Boards of Education, State Departments of Education, *State Federal Aid

Abstract

This is a comprehensive, up-dated directory of professional personnel of state higher education governing or coordinating agencies and state commissions for the administration of certain federal programs relating to higher education. The directory, compiled from questionnaires, originated from a need expressed by many persons in the field for names and positions of persons performing functions similar to their own in other agencies. The following information is provided by state: 1) title of agency; 2) name, title, and address of chief staff officers; and 3) names, titles, and functions of staff personnel. The same information is given for similar governing and coordinating groups in the District of Columbia, Guam, Puerto Rico, and the Virgin Islands, and for the New England Board of Higher Education, Southern Regional Education Board, and Western Interstate Commission on Higher Education. No attempt is made to classify or describe the coordinating organizations as to control and function with relation to institutions of higher education, except where a brief note of explanation was made by a respondent. Copies are available from the State Council of Higher Education for Virginia, 914 Capitol Street, Richmond, Virginia 23219. (DS)

With the sponsorship of the
State Council of Higher Education for Virginia

September, 1969

HE 001 158

PERSONNEL IN STATE COORDINATING AGENCIES AND COMMISSIONS

This is the second edition of a comprehensive up-to-date directory of professional personnel of state higher education governing or coordinating agencies and State Commissions for the administration of certain federal programs relating to higher education.

The directory originated from a need expressed by many persons in the field for names, positions, and functions, counterpart to their own, in other agencies. Persons in federal programs administration for higher education had expressed interest in securing such information, and have encouraged us to continue our effort.

With the excellent cooperation of all agencies we are able to provide the following information:

1. Title of Agency
2. Name, title and address of Chief Staff Officer
3. Name, title and function of staff personnel

No attempt has been made to classify or describe the coordinating agencies as to control and function with relation to institutions of higher education, except where a brief note of explanation may have been made by a respondent to our questionnaire.

We owe many thanks to the officers of these agencies and commissions for their cooperation in making this project a success.

A special note of appreciation is due also to the Association of Executive Officers of Statewide Boards of Higher Education for sanctioning the directory and to the State Council of Higher Education for Virginia for supporting its preparation and distribution.

D. H. W.
